

AMERITAS – FALLBROOK OFFICE

This three-story office facility is located in Fallbrook, a “new urbanism” development in Lincoln, Nebraska. One of the area’s first commercial buildings, it set the tone for future design.

Brick and glass are the predominant exterior building materials, giving a sense of permanence and stability while allowing abundant natural light to reach the workspaces. The facility features an open office environment, a raised-floor power and data distribution system, and indirect lighting to minimize computer glare. Amenities include a mother’s room, a medical room to care for minor injuries, an exercise room, cafeteria and outdoor patio.

We have worked with Ameritas for more than 20 years, including recent updates to their home office conference center.
